

The Math/Stats Colloquium
Department of Mathematics and Statistics
San José State University

Andrew Mayer

Center for Communications Research, La Jolla

Mathematics IRL:

*What it's like to work
at CCR La Jolla*

WED APR 27, 2022, VIA ZOOM

Abstract: The Center for Communications Research-La Jolla (CCRL) performs fundamental research in support of the National Security Agency's mission. I will discuss who we are, what we do, and present some math. Throughout, I'll try to give a sense of how math research is different outside of academia. It will be an informal talk with ample room for questions.

Background: No particular background required.

About the speaker: Andrew Mayer received his PhD at Princeton in 1993 and then joined the research staff at CCRL, where he worked in a wide range of mathematical (and related) areas for 25 years. In 2019, he took the position of CCRL Deputy Director. In this role, his main responsibility is the management of the research staff.

COLLOQUIUM BROADCAST VIA ZOOM, 3:00PM PACIFIC
