

### Math 131A information sheet, Spring 2018 (Hsu)

1. What is your full name, as registered? (Please **print** carefully, and please **circle** your family name, which is probably your last name, unless you're from certain parts of Asia or Eastern Europe.)
2. What is the name you usually go by? (What name do you use to sign your homework?) Please give a pronunciation guide if you think it may be helpful/necessary.
3. Campus ID number (the number you use to register, not your SSN):
4. E-mail address (please **print** carefully, and make "1" and "i" and "l" look different, as well as "0" (zero) and "O"):
5. Cellphone number to text/call if you oversleep an exam:
6. Major or prospective major (indicate undergrad/post-bac/master's):
7. Why are you taking Math 131A? (For instance, are you fulfilling a requirement?)
8. Are you currently registered for this class?
9. Are you taking this class again after previously not passing it?
10. Are you a graduating senior? (If so, please give me the appropriate paperwork as soon as possible.)
11. Are you taking this class through Open University? (If you don't know what that is, the answer is "no.")
12. Briefly describe your experience with doing proofs. Have you taken any classes where most of what you had to do involved proofs? (This primarily means Math 108, 128A/128B, or 129B; Math 42 doesn't count.)

Below, continuing on the back of this sheet if necessary, please list all other upper-division math courses (numbered 100 or more) you have taken, and where you took them (SJSU, community college, etc.), to the best of your recollection. If there are too many for you to remember, please try to list the most relevant ones; these might include linear algebra, vector calculus, advanced calculus, differential equations, and dynamical systems.
